

Codebook for the replication data of “Voters’ Perceptions and Evaluations of Dynastic Politics in Japan”

Codebook for “replication_data_stereotype.csv”

This section provides a codebook for “replication_data_stereotype.csv.” This is the data from the survey on the perceived prevalence and stereotypes of legacy politicians.

prevalence

Inference about the percentage of dynastic members in the Diet (see Online Appendix A.1).

trait.X

Trait stereotypes about dynastic members (see Online Appendix A.1).

- 1: More applicable to dynastic members
- 2: No difference between dynastic and non-dynastic members
- 3: More applicable to non-dynastic members

trait.1: Trustworthy

trait.2: Decisive

trait.3: Competent

trait.4: Politically experienced

trait.5: Honest

trait.6: Has strong leadership

trait.7: Benefits his or her constituency

trait.8: Does not commit corruption

trait.9: Wealthy

trait.10: Highly educated

trait.11: Has a broad network in politics and business

trait.12: Likely to become a cabinet minister

issue.X

Issue stereotypes about dynastic members (see Online Appendix A.1).

- 1: Dynastic members are better
- 2: No difference between dynastic and non-dynastic members
- 3: Non-dynastic members are better

- issue.1: Education
- issue.2: Crime and public security
- issue.3: Medical care
- issue.4: Child welfare
- issue.5: National security
- issue.6: Declining birthrate
- issue.7: Fiscal deficit
- issue.8: Diplomacy
- issue.9: Industrial policy
- issue.10: Public works

gender

A respondent's gender.

- 0: Male
- 1: Female

age

A respondent's age.

education

A respondent's educational attainment.

- 1: Elementary school or junior high school
- 2: High school
- 3: Junior college, college of technology, or vocational school
- 4: College
- 5: Graduate school

partisanship

Partisanship.

- 1: Liberal Democratic Party
- 2: Constitutional Democratic Party
- 3: Democratic Party for the People
- 4: Komeito
- 5: Japanese Communist Party

- 6: Japan Innovation Party
- 7: Social Democratic Party
- 8: Reiwa Shinsengumi
- 9: Other political organizations
- 10: I don't support any party.
- 11: I don't know, or I refuse to answer.

ideology

Ideological self-placement.

- 1: Very progressive (very leftist)
- 2: Somewhat progressive (somewhat leftist)
- 3: Neither progressive nor conservative (left nor right)
- 4: Somewhat conservative (somewhat rightist)
- 5: Very conservative (very rightist)

trust

Political trust.

"Please choose the option that best describes your feelings about the following opinions about politics: We can trust national politics."

- 0: Disagree
- 1: Somewhat disagree
- 2: Neither agree nor disagree
- 3: Somewhat agree
- 4: Agree
- NA: I don't know.

ex.efficacy

External political efficacy.

"Please choose the option that best describes your feelings about the following opinions about politics: Politicians no longer care about voters once elected."

- 1: Agree
- 2: Somewhat agree
- 3: Neither agree nor disagree
- 4: Somewhat disagree
- 5: Disagree
- NA: I don't know.

in.efficacy

Internal political efficacy.

“Please choose the option that best describes your feelings about the following opinions about politics: People like me have no say in what the government does.”

- 1: Agree
- 2: Somewhat agree
- 3: Neither agree nor disagree
- 4: Somewhat disagree
- 5: Disagree
- NA: I don't know.

elected

Dynastic members in a respondent's district (see Online Appendix A.1).

- 1: Yes.
- 2: No.
- 3: I don't remember.

Codebook for “replication_data_conjoint.csv”

This section provides a codebook for “replication_data_stereotype.csv.” This is the data from the conjoint experiment. Note that each row represents each hypothetical candidate in the conjoint experiment (not each respondent).

respondent.id

ID of each respondent.

rating

The outcome variable; i.e., a respondent's rating of each hypothetical candidate's favorability.

- 1: Not favorable at all
- 2:
- 3:
- 4:
- 5:
- 6:

7:

8: Very favorable

party

Conjoint attribute: party affiliation (See Online Appendix E.1).

cand.gender

Conjoint attribute: gender (See Online Appendix E.1).

cand.age

Conjoint attribute: age (See Online Appendix E.1).

cand.edu

Conjoint attribute: education (See Online Appendix E.1).

occupation

Conjoint attribute: occupation (See Online Appendix E.1).

hometown

Conjoint attribute: hometown (See Online Appendix E.1).

experience

Conjoint attribute: political experience (See Online Appendix E.1).

legacy

Conjoint attribute: legacy status (See Online Appendix E.1).

HOC

Election type (See Online Appendix A.2).

0: House of Representative election

1: House of Councillors election

gender

A respondent's gender.

1: Male

2: Female

3: Others

age

A respondent's age.

education

A respondent's educational attainment.

1: Junior high school

2: High school

3: Vocational school

4: Junior college

5: College of technology

6: College

7: Graduate school

partisanship

A respondent's partisanship.

1: Liberal Democratic Party

2: Constitutional Democratic Party

3: Democratic Party for the People

4: Komeito

5: Japanese Communist Party

6: Japan Innovation Party

7: Social Democratic Party

8: Reiwa Shinsengumi

9: Other political organizations

10: I don't support any party.

11: I don't know, or I refuse to answer.

knowledge

A respondent's self-reported political knowledge.

"Unless you are a politician or a commentator, it is natural that some people are familiar with politics while others are not. What do you think of yourself?"

1: I think I know well.

2: I think I know well, if anything.

3: I can't say either.

4: I think I don't know well, if anything.

5: I think I don't know well.
